Professional Development Workshops for Teachers

The 2008 program offers a bumper crop of workshops to choose from. The following is a complete list of workshops available to primary and secondary school teachers. Outlines for each workshop can be found on the Flying Arts website.

Hayden, Shena

Dazzling, dramatic drawing and painting techniques: professional development for primary school teachers (Masterclass)

The workshop will provide strategies that will build confidence in drawing and painting skills to help teachers present art for their students by showing how to use a variety of techniques and ideas that are suitable for use in a primary school.

A TPD

Available April – June

Kamholtz, Damien

Colouring outside the lines (Foundations)

This is a professional development workshop for staff in childcare settings, which promotes the importance of creativity in the lives of children and creativity as an educational tool. The workshop goal is to promote high quality art activities that allow for individual expression and learning as opposed to adult/teacher directed or 'gimmicky' activities. Staff will have the opportunity to create their own art works.

A TPD

Bennett, Wanda

3D art for projects, processions, celebrations and theatre (Foundations)

This is a series of workshops designed to give an introduction to "making for performance". The classes will cover simple techniques useful for making lanterns, puppets, environmental sculpture, costumes and props. Cane, bamboo, paper and fabric will be the main materials used and participants will be given the opportunity to discuss, design and create a variety of art works.

A CP FSE TPD

Hayden, Shena

The wonderful world of papier mache: professional development for primary school teachers (Masterclass)

This workshop is to provide primary teachers with the skills to conduct papier mache classes for their students. Learn how to manipulate and build imaginative creatures and interesting forms using paper, card, wire and tape, and how to share these skills with their students. Demonstrations of many different construction techniques will be presented.
